English

OPERATING INSTRUCTIONS - Type 652.02 - Type 652.03
Read these instructions carefully before using the appliance.
Available also on www.valera.com

WARNINGS

- For additional protection, the installation of a residual current device (RCD) having a rated residual operating current not exceeding 30mA is advisable in the electrical circuit supplying the bathroom. Ask your installer for advice.
- Make sure the unit is perfectly dry before using it.
- WARNING: Do not use this appliance near bathtubs, showers, basins or other vessels containing water.
- This appliance can be used by children from 8 years of age and over, and by persons with limited physical, sensory or mental abilities or who lack the relevant experience and knowledge, if they are suitably supervised or have been educated to use the appliance safely and made aware of the associated risks.
- Do not allow children to play with the appliance.
- Children must not perform cleaning and maintenance procedures unless supervised.
- Do not use your unit if it is not working properly. Do not try to repair this electrical unit yourself, rather contact an authorized technician. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified person in order to avoid a hazard.
- When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

- Only connect this unit to alternating current and check that the mains supply voltage corresponds to that indicated on the unit.
- Always switch off the appliance after use and disconnect the plug from the mains power socket. Do not remove the plug from the mains power socket by pulling the cable.
- Do not pull the plug out of the power supply socket when your hands are wet.
- Before switching on the appliance, always check its conditions and also control the transformer and power cable.
- The elements used to pack the unit (plastic bags, cardboard box, etc.) must be kept out of reach of children as they are a potential danger to them.
- This unit must only be used for the purposes for which it is expressly intended. Any other use is to be considered improper and therefore dangerous. The manufacturer accepts no responsibility for damage caused by improper or erroneous use.
